Curtains & Furnishing

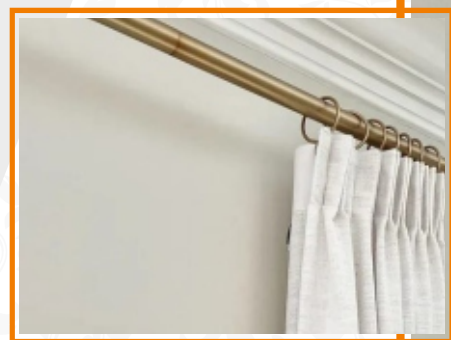

Our Curtains are a form of window decor and complete the overall appearance of the interior of the house. Curtains help control the ambiance and flow of natural ...curtain, in interior design, decorative fabric commonly hung to regulate the admission of light at windows and to prevent drafts from door or window.

Roman Curtains

In their basic form, Roman shades are simply fabric window coverings that can be raised or lowered with the help of a cord system and rings sewn on the back of the fabric. When raised, the fabric stacks evenly in horizontal folds.

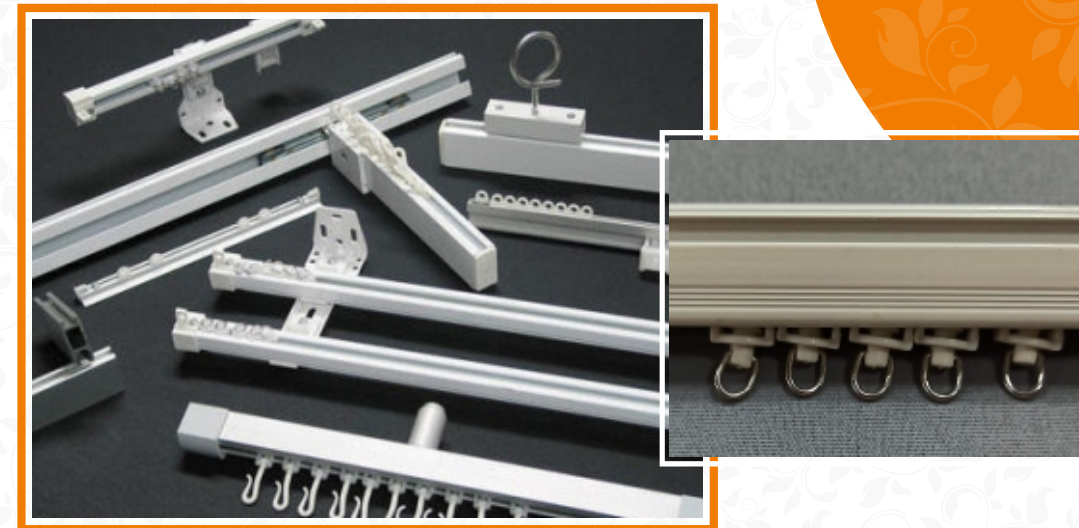

PRODUCTS HOME FURNISHINGS

Drapery Rod

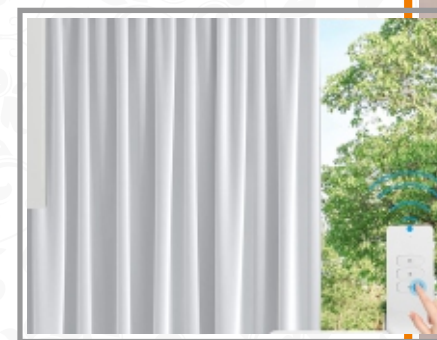

These mechanical rods operate by using small clips that move along a track that is embedded in the rod itself. This allows the curtain or drape to move smoothly along the rod and prevents any snagging that may happen with traditional curtain rods.

PRODUCTS HOME FURNISHINGS

M-Track/ Fast-Track

Our range of products include Roman Controller, Curtain M Track, Roman Blind Channel, Curtain Rings, Cotton Curtain and Designer Curtain Stitching. Backed by a rich industrial experience, we are engaged in offering a commendable array of M Track Curtain well-known manufacturer of Curtain Rods, Curtain Channels, Designer Curtain. Automation Track

Service Provider of an extensive array of Automatic Sliding Door, Automatic Sliding Gate, Automatic Boom Barrier, Motorized Blinds, Rolling Shutter Motor, etc. we direct all our activities to cater the expectations of customers by providing them excellent quality products as per their gratifications. moreover, we follow moral business policies and crystal pure transparency in all our transactions to keep healthy relations with the customers.

PRODUCTS HOME FURNISHING

Wallpapers/Posters

Wallpaper is a material used in interior decoration to decorate the interior walls of domestic and public buildings. It is usually sold in rolls and is applied onto a wall using wallpaper paste. Shop affordable decorative posters featuring an endless array of designs by independent artists. Upgrade your room, dorm or apartment decor with artwork as ...

PRODUCTS HOME FURNISHING

Green Walls

A green wall is a vertical built structure intentionally covered by vegetation. Green walls include a vertically applied growth medium such as soil, substitute substrate, or hydroculture felt; as well as an integrated hydration and fertigation delivery system. Living green walls act as extra insulation with a layer of air between the plants and the wall. They also reduce noise levels by reflecting, refracting and absorbing acoustic energy.

Foam Bricks

These wet foam blocks for glass are made of soft fine styrofoam. Easy to use: Cut the floral foam brick as any shape as you want, put it into water slightly and wait for one minute until it absorbed water fully. evels by reflecting, refracting and absorbing acoustic energy. Foam concrete blocks are building blocks obtained from foam concrete. It is a building block the size of several bricks with a mass less than concrete, which is very convenient for construction.

PRODUCTS WINDOW FASHION

Designer window fashions are made to order, fashionable window treatments that are created by interior designers, rather than already made window coverings produced in large quantities at a factory. They are custom in every sense of the word. curtain, in interior design, decorative fabric commonly hung to regulate the admission of light at windows and to prevent drafts from door or window openings. Curtains, usually of a heavy material, arranged to fall straight in ornamental folds are also called draperies. Portieres are heavy curtains hung in a doorway.

PRODUCTS WINDOW FASHION

Roller Blinds

There are Our many types of window blinds to make your windows more attractive and stylish. Among them are roller blinds. These are a very affordable type of window blind that you roll up or down with the help of a cord. These window coverings are one of the best options for offices but are suitable for homes as well. In fact, roller blinds are a great alternative to traditional curtains in the home. Read on to learn more about these interesting window coverings.

Vertical Blinds

Vinyl Vertical Window Blind, Diamond Vertical Blinds, Vertical Window Blinds and Hans Vertical Blinds offered by V-Decor They're sleek, simple and are the perfect window solution. This specific window covering gives the user the chance.

Wooden Venetian Blinds

The structure of Wooden Venetian blinds is a simple one: they are horizontal slats made from either wood or metal and suspended on ladder cords. They can be easily adjusted to let in more or less light, and they're easy to raise and lower. Venetian blinds allow lots of flexibility over how they're positioned, so they're great blinds for privacy control, whilst still allowing lots of light and air to circulate.

Zebra Blinds

Zebra blinds, also called dual blinds, are a modern roller blind alternative to horizontal blinds. Consisting of alternating horizontal opaque and sheer fabric stripes, these blinds transition from day to night easily. By adjusting the stripes, you're in control of how much light and privacy your room receives. If you're concerned about prying eyes, zebra blinds solve that problem. Thanks to the black-and-white sheer layers, you can enjoy looking outside during the day while outsiders can't see in.

Bamboo Blinds

Bamboo blinds are the perfect thing for super-sunny rooms: They'll give you privacy while still letting some of that sunshine sneak through—you pay a lot of rent for all of that sunshine! — and they're ridiculously affordable. In designer Casey Kenyon's Brooklyn bedroom, bamboo blinds turn direct sun into dappled light.

Industrial Blinds

Industrial blinds are positive isolation safety devices that allow craftsmen to work in a safe environment by controlling the flow of fluids and vapours. They also are used for the pressure testing of pipes and systems after a modification.

PRODUCTS WINDOW FASHION

Monsoon Blinds

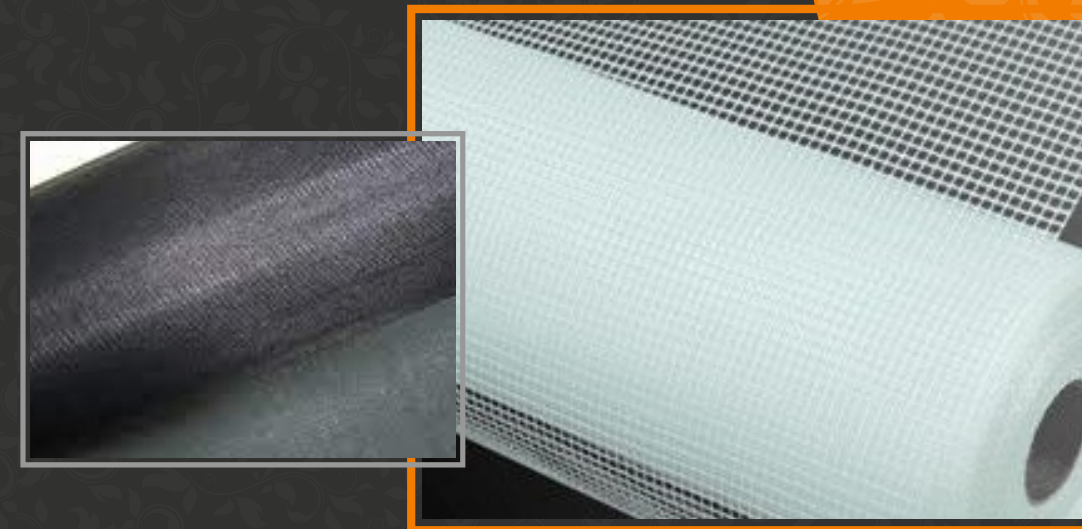

These custom fit blinds withstand Indian tropical weather effects such as rain, wind, harsh glare or heat. The monsoon blinds themselves are easy to handle and maintain. Ideal for open areas, Monsoon blinds protect against the onslaught of the monsoon, and gusty winds. As PVC is a synthetic material, it is incredibly strong and manufactured to be able to withstand everything from strong winds and rains to high levels of UV light from the sun without warping, cracking or fading.

Glass Filming

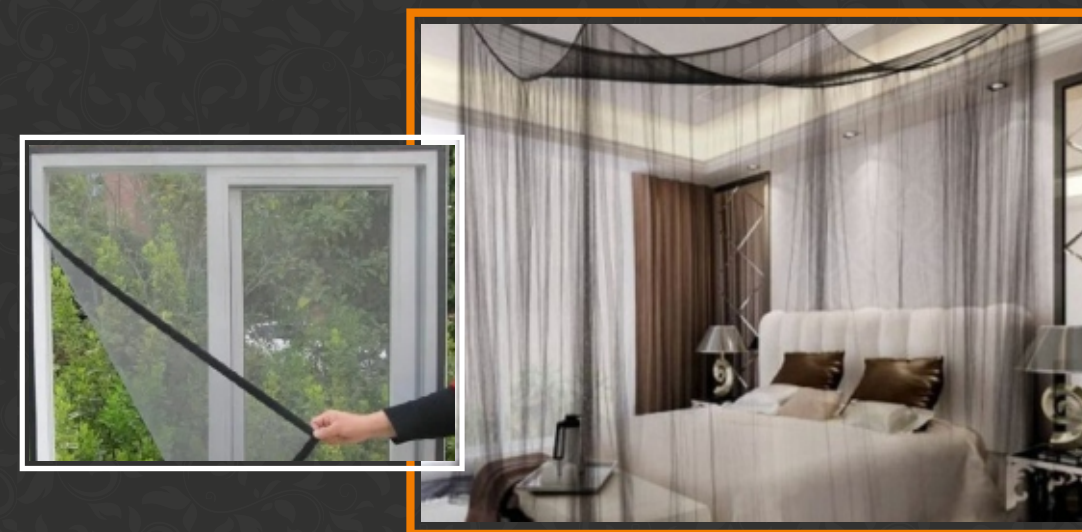

In the world of window films, decorative film is one of the most popular categories. In addition to being high in demand, the spectrum of decorative glass film is vast, spanning from various applications to an endless array of types, such as frosted privacy film, perforated graphics, architectural films, and many more. To highlight some of these various styles, below we share seven different types of decorative film for interior and exterior applications.

PRODUCTS WINDOW FASHION

Saint Gobain Fibre Glass Mesh

Saint Gobain Fiberglass Mesh screening is considered an anti-corrosive material and has the advantage of not "denting" when hit or pushed. Fiberglass mesh is somewhat more opaque than aluminum mesh, making it a well transparent alternative. Its attractive appearance allows a wide variety of applications while maintaining the transfer of air.

Netlon Mosquito Net

Our Mosquito Net prevents from mosquito bites, mosquito borne diseases and protects your family's health from awful side-effects of using sprays, mosquito coils, and mosquito mat & mosquito repellents. Whether you live in mosquito-prone area or traveling to one, our mosquito nets offers you best protection against mosquitoes, mosquito bites, insects & flies. Our Mosquito Nets are available in different sizes, and it will suit all of your window sizes. We have Wide Range of mosquito nets for adults and kids. Our Mosquito net comes with superior quality & we deliver mosquito nets in Belgavi at your door step.

PRODUCTS FLOOR CONCEPT

Floor Furnishings right from inception has been striving relentlessly to redefine the furnishings benchmarks in terms of quality, innovation, and service. We have showcased countless testimonies to earn industry's trust and respect. From manufacturing to procuring best of products ranging from upholstery to curtains. From wallpapers to carpet tiles. From blinds to home accessories. The lineage of F&F to deliver world-class standards has become an industry norm. Retail outlets and wholesalers prefer F&F edge and proudly flaunt it to win customers anywhere in India.

PRODUCTS FLOOR CONCEPT

Vinyl Flooring

Sheet vinyl flooring is vinyl flooring that comes in large, continuous, flexible sheets. A vinyl sheet floor is completely impermeable to water, unlike vinyl floor tile, which comes in stiff tiles, and vinyl planks, which come in interlocking strips. Being resistant to water, vinyl is a great flooring option for kitchens, bathrooms, and basements. It's also a great option for playrooms or for areas where children are sure to spill something every now and again.

Wooden Flooring

Wood flooring is any product manufactured from timber that is designed for use as flooring, either structural or aesthetic. Wood is a common choice as a flooring material and can come in various styles, colors, cuts, and species. Hardwood flooring is stylish and sustainable, comes in a variety of natural colors, and doesn't absorb dust or debris, making it easy to clean and maintain," he says. Murphy says it is also a good choice for the kitchen because you rarely need to replace hardwood flooring.

PRODUCTS
FLOOR CONCEPT

SPC Floorings

What is SPC? Rigid core luxury vinyl flooring, also known as SPC flooring, is the most durable waterproof vinyl flooring option on the market. It has a similar construction to WPC, but it comes with an ultra-tough core, which is where the name "rigid core" comes from. SPC flooring is going to be better at absorbing sound than traditional vinyl plank flooring (though WPC absorbs sound better). SPC uses stone plastic composite to make an extremely rigid core, making it virtually indestructible and the hardest to dent of all the other vinyl flooring options.

Artificial Lawn

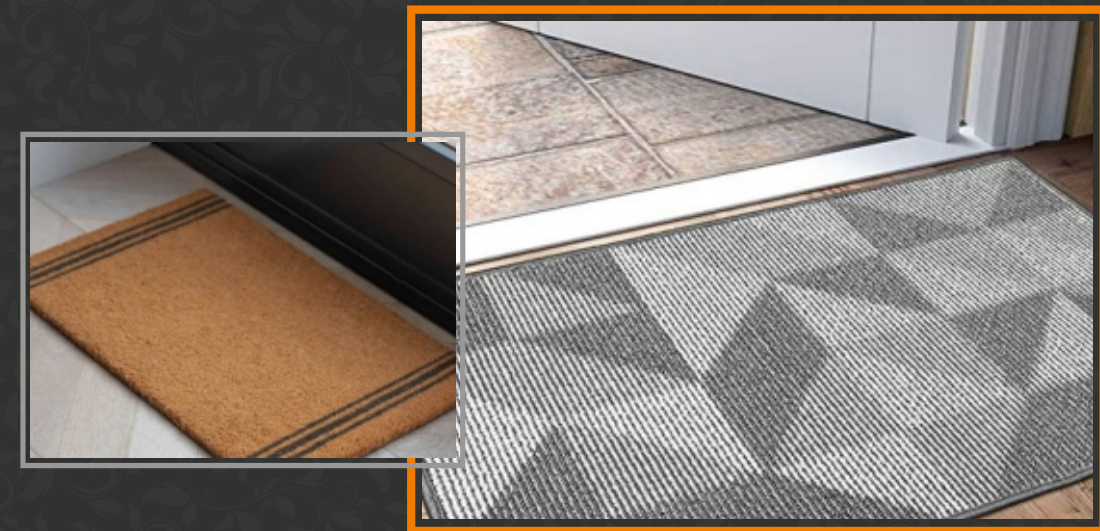

It is clear that the pros of artificial grass far outweigh the cons. Artificial grass is low-maintenance, durable, pet-friendly, long-lasting, cost-effective, offers flexible design options, and will give you a green, vibrant space that you can enjoy all year round. Artificial grass is easy to maintain, does not require mowing or watering. For that reason, it is very suitable for playgrounds, sports courts as it reduces electricity bills and spares valuable water and time. Convenient for maintenance and refreshing for decoration!

PRODUCTS
FLOOR CONCEPT

Carpets

A carpet is a textile floor covering typically consisting of an upper layer of pile attached to a backing. The pile was traditionally made from wool, but since the 20th century, synthetic fibers such as polypropylene, nylon, or polyester are often used, as these fibers are less expensive than wool. A carpet is a textile floor covering typically consisting of an upper layer of pile attached to a backing. The pile was traditionally made from wool, ..

Door Mats

A doormat or door-mat is a flat, usually rectangular but sometimes oval, object, usually placed immediately outside or inside the entrance to a house or other building, to allow people to easily scrub or wipe the soles of their shoes before entering. Aside from being a welcome invitation to enter an establishment, door mats actually have a really important job. Scraping dirt, debris, and excess moisture from foot traffic entering a home or business, a door mat effectively eliminates potential hazards from making their way to the interior floor space.

PRODUCTS BED LINEN

Polyester and cotton is the most common blend available, but you might also find cotton and bamboo or cotton and rayon blends. Blended fabrics will usually include cotton, and are fairly cheap, so often used for children's bedding. As flax is one of the oldest plants used for textile production, linen ultimately was one of the first fabrics bed sheets were made of. Hence the term bed linen or simply linens. 100% cotton is the most popular because it's soft, strong and comfortable to lie on. Polyester or cotton/polyester blends are often more durable and less expensive, but they don't feel as natural. You can also choose from novelty fibers (like lyocell or linen) for a unique feel.

PRODUCTS BED LINEN

Bedsheets

A bed sheet is a rectangular piece of cloth used either singly or in a pair as bedding, which is larger in length and width than a mattress, and which is placed immediately above a mattress or bed, but below blankets and other bedding. Good bedding is essential in providing insulation, warmth, and comfort. It's unlikely that most will not want to replace linen often, but it is recommended that you do. If this is the case, ensure that they are often washed, reusable for a longer period and that they are of high quality.

Mattresses

A mattress is a large, usually rectangular pad for supporting a lying person. It is designed to be used as a bed, or on a bed frame as part of a bed. There are 3 key types of mattresses — innerspring, hybrid, and foam: Many mattress shoppers are most familiar with innerspring mattresses. As the oldest and most established of these mattress types, most of us grew up sleeping on a traditional innerspring mattress.

PRODUCTS BED LINEN

Pillows/Cushion

A pillow is a support of the body at rest for comfort, therapy, or decoration. Pillows are used by many species, including humans. Some types of pillows include throw pillows, body pillows, decorative pillows and many more. Pillows that aid sleeping are a form of bedding that supports the head and neck. A cushion is a soft bag of some ornamental material, usually stuffed with wool, hair, feathers, polyester staple fiber, non-woven material, cotton, or even paper torn into fragments. It may be used for sitting or kneeling upon, or to soften the hardness or angularity of a chair or couch.

Bed Spreads

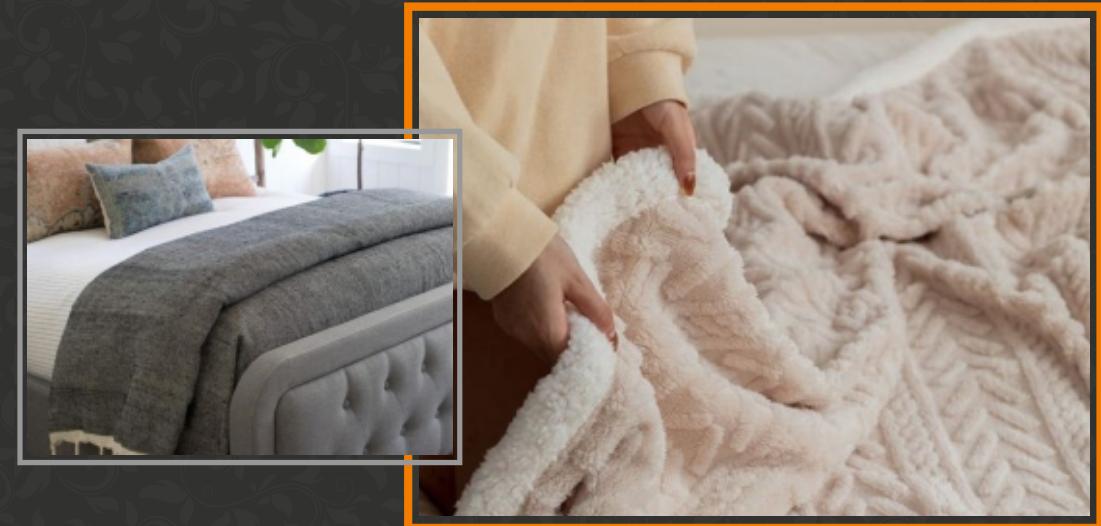

A spread can have several meanings in finance. Generally, the spread refers to the difference between two prices, rates, or yields. In one of the most common definitions, the spread is the gap between the bid and the ask prices of a security or asset, like a stock, bond, or commodity. This is known as a bid-ask spread. to open or expand over a larger area spread out the map. b : to stretch out : extend spread its wings for flight.

PRODUCTS BED LINEN

Bed Covers

Bed cover is used to protect your bed and expensive mattress for stubborn stains, Prevent any kind of liquid from spreading on the bed sheets. A bed should have anywhere between three and seven layers. These can include the following: a mattress protector, bed skirt, fitted or flat sheet, top sheet, duvet/comforter, blanket/throw – and, of course, pillows. The blend of cotton and polyester is the most common, but cotton/bamboo, cotton/rayon, and nylon/polyester are also popular. Blended fabrics are typically affordable, durable, and wrinkle resistant.

Blankets

A blanket is a swath of soft cloth large enough either to cover or to enfold most of the user's body and thick enough to keep the body warm by trapping radiant body heat that otherwise would be lost through convection. A blanket is a large square or rectangular piece of thick cloth, especially one that you put on a bed to keep you warm. Extra blankets and soft pillows are provided for your comfort. If you are cold, you can ask for an extra blanket on your bed.

PRODUCTS BED LINEN

Quilts/Duvet

A quilt is a multi-layered textile, traditionally composed of two or more layers of fabric or fiber. Commonly three layers are used with a filler material. A duvet, usually called a comforter or quilt in US English, and a doona in Australian English, is a type of bedding consisting of a soft flat bag filled with either down, feathers, wool, cotton, silk, or a synthetic alternative, and is typically protected with a removable cover, analogous to a pillow and pillow case.

PRODUCTS BED LINEN

Dohar

A green wall is a vertical built structure intentionally covered by vegetation. Green walls include a vertically applied growth medium such as soil, substitute substrate, or hydroculture felt; as well as an integrated hydration and fertigation delivery system. Living green walls act as extra insulation withing, refracti a layer of air between the plants and the wall. They also reduce noise levels by reflection and absorbing acoustic energy.

Towels / Napkins

A towel is a piece of absorbent fabric or paper used for drying or wiping a body or a surface. It draws moisture through direct contact. In households, several types of fabric towels are used, including hand A napkin, serviette or face towelette is a square of cloth or paper tissue used at the table for wiping the mouth and fingers while eating. It is usually small and folded, sometimes in intricate designs and shapes. towels, bath towels, and kitchen towels. At the beach, people use beach towels.
